P Pearson

aimswebPlus + WriteToLearn
provides you with the tools to help.

aimswebPlus
A norms-based screening and progress monitoring tool that measures literacy skills

+

WriteToLearn
an automated web-based tool for building writing skills and reading comprehension

=

A powerful connection to measure, monitor, intervene, and plan to help students refine their writing skills

Early screening is key for student success

aimswebPlus screens and monitors the reading and math skills of PreK–12 students. With its robust set of standards-aligned measures, this comprehensive system is proven to uncover learning gaps quickly, identify at-risk students, and assess individual and classroom growth. aimswebPlus also has add-on screeners for behavior and dyslexia to provide a comprehensive, all-in-one system.

WriteToLearn provides the tools to further develop reading comprehension, expand vocabulary, and build writing skills across genres, styles, and text analysis, for 4-12 students. With automated scoring, reporting and immediate feedback, the web-based tool aids students in the practice of writing through review and edit cycles and access to writing support tools tailored to individual student's needs.

How do I use these two tools together?

Step 1: Universally screen your students with aimswebPlus to identify your students' strengths and challenges.

Step 2: Follow up with students by using WriteToLearn as part of your curriculum or as a formative writing intervention, support, and progress monitoring tool.

Step 3: Progress monitor with aimswebPlus to monitor student growth.
