SAMPLE REPORT

Case Description: Brenda—Psychiatric Outpatient Score Report

Brenda is a 16-year-old female who was seen for an outpatient psychodiagnostic evaluation. She had been placed in the custody of the local county children's services agency as a result of severe parent/child conflict and unruly behavior. In the following 5 months, she had a series of out-of-home placements. She was referred for psychological evaluation because of these behaviors as well as reports of current depression and a history of several suicide attempts.

Case descriptions do not accompany MMPI-A-RF™ reports, but are provided here as background information. The following report was generated from Q-global®, Pearson's web-based scoring and reporting application, using Brenda's responses to the MMPI-A-RF. Additional MMPI-A-RF sample reports, product offerings, training opportunities, and resources can be found at [PearsonClinical.com/mmpiarf](https://www.pearsonclinical.com/mmpiarf).

*The adolescent provided scorable responses to less than 90% of the items scored on this scale. See the relevant profile page for the specific percentage.

Note. This information is provided to facilitate interpretation following the recommended structure for MMPI-A-RF interpretation in Chapter 7 of the *MMPI-A-RF Administration, Scoring, Interpretation, and Technical Manual*, which provides details in the text and an outline in Table 7-1.

ITEM-LEVEL INFORMATION

Unscorable Responses

Following is a list of items to which the adolescent did not provide scorable responses. Unanswered or double answered (both True and False) items are unscorable. The scales on which the items appear are in parentheses following the item content.

30. Item Content Omitted. (VRIN-r, TRIN-r, CRIN)

159. Item Content Omitted. (NFC, NEGE-r)

Special Note:

The content of the test items is included in the actual reports. To protect the integrity of the test, the item content does not appear in this sample report.

Critical Responses

Six MMPI-A-RF scales--Helplessness/Hopelessness (HLP), Anxiety (AXY), Ideas of Persecution (RC6), Aberrant Experiences (RC8), Substance Abuse (SUB), and Aggression (AGG)--have been designated by the test authors as having critical item content that may require immediate attention and follow-up. Items answered by the adolescent in the keyed direction (True or False) on a critical scale are listed below if her T score on that scale is 60 or higher. The percentage of the MMPI-A-RF normative sample (NS) and of the Psychiatric Outpatients, National (Girls) comparison group (CG) that answered each item in the keyed direction are provided in parentheses following the item content.

Helplessness/Hopelessness (HLP, T Score = 80)

- 56. Item Content Omitted. (False; NS 31.6%, CG 34.6%)
- 62. Item Content Omitted. (True; NS 17.9%, CG 26.7%)
- 119. Item Content Omitted. (True; NS 17.0%, CG 24.2%)
- 121. Item Content Omitted. (True; NS 36.3%, CG 53.5%)
- 169. Item Content Omitted. (False; NS 17.1%, CG 30.8%)
- 194. Item Content Omitted. (True; NS 15.5%, CG 18.2%)
- 228. Item Content Omitted. (True; NS 35.6%, CG 39.3%)
- 239. Item Content Omitted. (True; NS 40.9%, CG 50.2%)

Critical Items (Forbey & Ben-Porath)

The MMPI-A-RF contains a number of items whose content may indicate the presence of psychological problems when endorsed in the deviant direction. These "critical items" are adopted from the ones designated by Forbey and Ben-Porath for the MMPI-A (for details, see Forbey, J.D., & Ben-Porath, Y.S. [1998] A critical item set for the MMPI-A. Minneapolis, MN: University of Minnesota Press). Responses to critical items may provide an additional source of hypotheses about the adolescent; however, they should be used with caution because single item responses are unreliable. The percentage of the MMPI-A-RF normative sample (NS) and of the Psychiatric Outpatients, National (Girls) comparison group (CG) that answered each item in the keyed direction are provided in parentheses following the item content.

Anxiety

- 65. Item Content Omitted. (True; NS 15.5%, CG 15.3%)
- 170. Item Content Omitted. (True; NS 12.4%, CG 34.1%)

Cognitive Problems

- 126. Item Content Omitted. (True; NS 17.0%, CG 30.2%)
- 214. Item Content Omitted. (False; NS 11.8%, CG 30.2%)

Conduct Problems

- 33. Item Content Omitted. (False; NS 29.2%, CG 32.8%)
- 111. Item Content Omitted. (True; NS 24.6%, CG 23.8%)
- 118. Item Content Omitted. (True; NS 26.1%, CG 29.4%)
- 148. Item Content Omitted. (True; NS 11.5%, CG 13.5%)
- 238. Item Content Omitted. (False; NS 25.7%, CG 37.0%)

Depression/Suicidal Ideation

- 46. Item Content Omitted. (True; NS 30.3%, CG 40.1%)**
- 69. Item Content Omitted. (True; NS 20.1%, CG 44.1%)
- 74. Item Content Omitted. (True; NS 11.5%, CG 32.8%)
- 119. Item Content Omitted. (True; NS 17.0%, CG 24.2%)
- 155. Item Content Omitted. (True; NS 15.8%, CG 21.1%)**
- 200. Item Content Omitted. (True; NS 17.9%, CG 26.1%)

Family Problems

- 180. Item Content Omitted. (True; NS 12.7%, CG 6.0%)
- 223. Item Content Omitted. (False; NS 28.8%, CG 42.7%)

Hallucinatory Experiences

- 168. Item Content Omitted. (True; NS 16.6%, CG 13.3%)

School Problems

- 40. Item Content Omitted. (True; NS 22.3%, CG 45.4%)
- 88. Item Content Omitted. (True; NS 14.5%, CG 26.6%)
- 110. Item Content Omitted. (True; NS 18.8%, CG 17.2%)
- 127. Item Content Omitted. (True; NS 24.2%, CG 35.0%)

Somatic Complaints

181. Item Content Omitted. (True; NS 25.6%, CG 36.0%)

Substance Use/Abuse

235. Item Content Omitted. (True; NS 23.0%, CG 18.6%)
