

Take the guesswork out of math interventions

Now featuring an Enhanced
User's Guide!

PAL-II Math—
More Than An Assessment...

It's An
Integrated
Solution
Package!

OVERVIEW

Grade Range

K to 6

Norms

Scaled Scores and
Cumulative Percentages

Administration

Time depends on
the purpose of the
assessment: Tier 1,
Tier 2 or Tier 3

Qualification Level

B

The only test to investigate the cognitive processes related to math

The Process Assessment of the Learner™- Second Edition Diagnostics for Math (PAL™- II Math) measures not only basic math skills, but also the development of cognitive processes that are critical to learning math skills and actual math performance.

Understand WHY a student has difficulty in math

- Provides specific subtest administration and interpretation based on referral concern
- Helps in formulating a diagnosis of math disability
- Links to specific interventions
- Introduces novel quantitative and spatial working memory tasks associated with math computation skills
- Operates as a follow-up to earlier assessment

Enhanced User Guide

Materials

PAL-II Math Kit

Includes Administration and Scoring Manual, Stimulus Book, Stimulus Booklets, 10 each of the Record Forms, and Response Booklets
015-8661-729

PAL-II Math Record Forms

Package of 25
015-8661-761

PAL-II Math Response Booklets

Package of 25
015-8661-77X

Evidence-based design for use at all RTI Tier levels — subtest selection, interpretation, and interventions.

- **Designed to fit the way you want to use it:** Works on any operating system, computer, tablet, or device that can display Adobe Acrobat (.pdf) files
- **No more disks:** Downloadable from pearsonclinical.com. Web delivery allows use on newer devices without CD-ROM
- **Improved navigation:** Offers easier access to effectively use this powerful tool
- **Ability to print lesson sheets for use with students**

The perfect companion to PAL-II Math

PAL-II Diagnostic Assessment for Reading and Writing measures the development of psychological processes directly related to the acquisition of reading and writing skills.
